LUMIXE

MIRRORS THAT REFLECT YOUR STYLE.

When it comes to functionality we currently offer 3 options. Option 'B' our Bluetooth model, which has 3 buttons and includes all functions.

Option 'S' our standard model, which has 2 buttons and includes all functions excluding the Bluetooth audio.

Or option 'W' our touchless model which offers the same functionality as the option S, only that its controlled via a wave motion and not buttons.

All models in our range also come with the CCT remembrance feature. This means your mirror will store and remember the last settings you had on before turning it off. This comes in handy if you're going to wire it into your light circuit and turn it on and off via a wall switch.

With this function, there's no need to turn the lights or defogger on via the button again as the remembrance feature will restore those settings for you.

TOUCH-BUTTON DIMMER

This function is designed to create soft ambiance when needed or a bright light when starting the day! It allows the mirror to be adjusted to your mood and further comfort you in your space.

Simply use the touch button to operate the function and watch the brightness seamlessly change from dark to bright, and back again.

ADJUSTABLE LED LIGHTING

Designed with versatility in mind with 3 colour / temperature option on all models.

The temperatures consist of warm, natural and cool white. Aside from the colour, you also have the option to choose a front lit or backlit design. Front lit allows light through a frosted section of the glass. Backlit allows the light from behind creating a softer halo effect, so you're guaranteed to find that perfect light for your space.

WAVE SENSOR MOTION

Our touchless range is completely touch free and operates via a wave motion. Coming in most of our ranges in the smaller sizes its packs all the functionality of the option S.

DEMISTER AND DEFOGGER

The mirror demister, also known as the mirror defogger has become an essential function to any bathroom mirror. Its simple operation provides you with a constant fog/steam free mirror at the touch of a button.

The times of wiping away the condensation from your mirror are gone.

BLUETOOTH AUDIO

Enjoy listening to music while you're getting ready to head out? Or maybe its some gentle sounds while in the bath to help wind down after a long day.

Whatever you listen to, our Bluetooth model has you covered. With integrated speakers you can play and listen to all your favourites from any smart device.

BUTTON ILLUMINATION

Not everyone wants their buttons lit up at night so Lumixe added a function that allows you to completely turn off illumination from the buttons themselves, not an external switch.

Now you have the choice to either enjoy a soft blue night light that makes your space feel modern and alive, or simply turn them off for complete darkness and a clean and simple look.

ALBA COLLECTION

The newest addition to our LED range the corner flameless back lit mirror. It's innovative design allowing for the softness and curves of a round mirror but a larger surface area to really open up your bathroom space.

MORE THAN JUST MIRRORS

A lot more goes into a Lumixe mirror than you may think! Not only do we set the bar high with our innovative tech and new on-trend designs, we also put many hours of R&D into the smaller details.

From high quality specific electrical components to using an all aluminium construction for weight and rust resistance.

We also completely removed any polystyrene use and use heavy duty recyclable honeycomb packaging where needed.

BUTTON ILLUMINATION

Not everyone wants their buttons lit up at night so we have added a function that allows you to completely turn off the button illumination

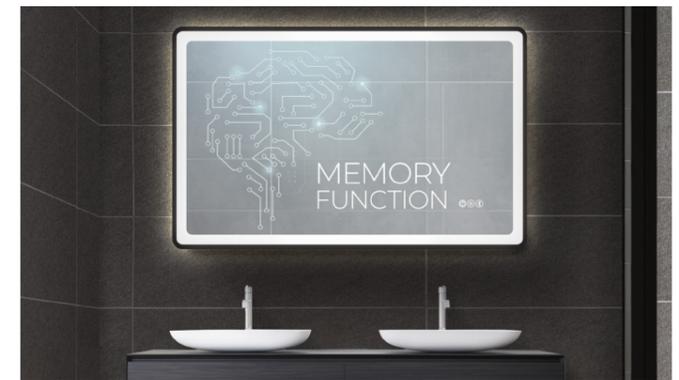

DEMISTER / DEFOGGER

Manually wiping away the condensation from your mirror vapourise with our demister/defogger - an essential function to any bathroom mirror.

DIMMING CONTROL

Designed to create soft ambiance when needed or a bright light when starting the day! It allows the mirror to be adjusted to your mood and comfort you in your space.

SETTINGS MEMORY

Want the option to use your mirror functions without using the mirror? Our mirrors have a settings memory meaning whether your turn it off via the buttons/wave or whether you wire it via an external switch it will always restore your setting left previously.

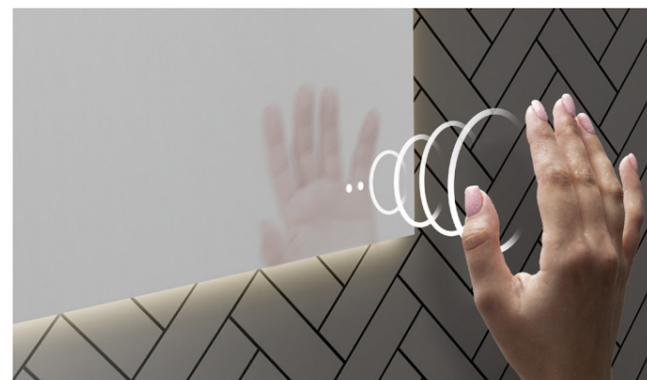

INTEGRATED BLUETOOTH SPEAKERS

Listen to your favourite music in the morning, relaxing in the bath after a long day, or getting ready to head out. With integrated Bluetooth speakers you can play and listen to all your favourites from any smart device.

TRIED AND TESTED ROBUST PACKAGING

We don't use any polystyrene and opt for custom moulded EPE (Expanded Polyethylene) foam inserts instead. This not only supports and protects the mirror more, it's also mess free and a recyclable material!

TOUCHLESS CONTROL

Prefer not to see the buttons and avoid fingerprints? Our touchless range is completely touch free and operates via a wave motion. Coming in most of our ranges in the smaller sizes its packs all the functionality of the option S.

3 COLOUR TEMPERATURE LED LIGHTING

Our mirrors are designed with versatility in mind and that's why we include the 3 colour / temperature options. Warm white 3000K, natural white 4500K and cool white 6000K, with the option to choose a frontlit or backlit design.

WARRANTY & CLAIMS

STANDARD AUSTRALIAN CONSUMER LAW GUARANTEE

- Our goods come with guarantees that cannot be excluded under the Australian Consumer Law.
- You are entitled to a replacement or refund for a major failure and compensation for any other reasonably foreseeable loss or damage.
- You are also entitled to have the goods repaired or replaced if the goods fail to be of acceptable quality and the failure does not amount to a major failure.

LUMIXE MIRRORS AUSTRALIA PTY LTD WARRANTY

- 3 Years for domestic use (replacement product or part).
- 1 year for commercial use (replacement product or part).

NOTE: Labour is NOT included.

TERMS & CONDITIONS

- The warranty period commences from the date of purchase.
- Your product must be installed by a licensed tradesman and a some form of proof must be provided (if requested by Lumixe).
- Your product must not be altered, modified or repaired in any way unless advised otherwise by Lumixe.
- It's at Lumixes discretion if the product will be repaired or replaced. The best option will be decided on your specific product and fault and circumstance at the time.
- Lumixe is not liable for any labour costs involved in removing or re installing your product.
- Lumixe is not liable for faults that occur from a poorly installed product.

- Lumixe is not liable for scratches, chips or marks that occur after installation.
- Lumixe is not liable for defects caused by excessive moisture, excessive heat, faulty electrical supply or normal wear and tear.
- In the case of a replacement, if the exact model is unavailable for whatever reason (OOS, superseded, discontinued etc.) you will be provided with the closest alternative or a model of your choice at equal or less value (Lumixe will not provide a cash refund under any circumstance).

CLAIMS & RETURNS

- Your product must be checked within 5 days of receiving it.
- Claims for damaged products (chips, cracks, breakages etc.) must be made within this period or your claim will be rejected.
- No claims for damages or defects will be honored after installation.
- Once installed you accept your mirror is correct and damageless.
- Proof of purchase must be supplied when submitting your claim.
- Please contact your distributor or Lumixe directly and fill out our warranty form below.
- Once submitted our warranty team will contact you within 72 hours with an outcome and further instructions.
- If a replacement claim is approved and Lumixe requires the mirror to be returned, Lumixe will cover return postages costs.

NOTE: If Lumixe chooses to not have the faulty mirror returned, the customer will be required to dispose of it.
